An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 25, lines 2 and 3, each of the four occurrences of "SEPHAROSE" has been changed to - - cross-linked agarose gel and "CIBACRON Blue" has been changed to Cibacron Blue - - .

In the specification, page 4, line 27, after "SEPHAROSE", (cross-linked agarose gel) has been inserted.

Authorization for this examiner's amendment was given in a telephone interview with Carl B. Massey, Jr. on February 15, 2005.

The following is an examiner's statement of reasons for allowance: Wilson (U.S. Patent No. 6,310,186) (column 3, lines 35-38) evidences SEPHAROSE is a cross-linked agarose gel. Shanbrom (U.S. Patent No. 6,096,216) (column 5, lines 7 and 8) evidences SEPHAROSE is a cross-linked agarose gel. As such, replacing the trademark Sepharose with its definition is not considered to be new matter. Jungbauer (U.S. Patent No. 5,676,837) and Caughey (Journal of Virology, May 1997, page 4107-4110) are considered to be the closest art because Jungbauer (U.S. Patent No. 5,676,837) discloses a method of sterilizing chromatography resins and Caughey (Journal of Virology, May 1997, page 4107-4110) discloses guanidineHCl reduces infectivity. The case has been allowed because the claimed method would not have

been obvious from the combined teachings of Jungbauer (U.S. Patent No. 5,676,837) and Caughey (Journal of Virology, May 1997, page 4107-4110).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to E. Therkorn at telephone number (571) 272-1149. The official fax number is (703) 872-9306.
